Archexteriors vol. 40 collection consists of five suburban 3D scenes, ideal for architectural visualizations. Each scene is a complete environment with greenery, small architecture and a set camera. Just put your 3d model of your building in and render it. Thanks to architectural templates, you save time on preparing 3D scenes. Each exterior is prepared in two versions - for Forest Pack and a second version with VrayProxy. The scenes are compatible with Vray 6 and Forest Pack 8.0.6.
