

archmaterials vol. 5

Archmaterials vol. 5 is our first OSL Parallax Maps collection of room interiors. Parallax maps can be added to a single plane - but in the render you get an interior with a real depth feeling. The room itself contains no extra geometry, the interiors exist only in a shader. You can easily and quickly add many interiors for your buildings at almost no performance cost. This collection is ideal for creating interiors in skyscrapers and shop expositions.

FEATURES

ITEMS:	45
COMPATIBILITY:	VARIOUS SOFTWARE
