

archmodels vol. 310

Archmodels vol. 310 is a collection of 42 highly detailed construction site 3D models designed for architectural visualization, exterior rendering and large-scale environments.

The collection includes construction machinery and vehicles, scaffolding, formwork systems, temporary site facilities, fencing, containers, building materials and a wide range of construction equipment and props.

Five selected models are rigged with movable parts, allowing them to be easily posed and adjusted for different scenes: AM310_002, AM310_006, AM310_007, AM310_009, AM310_010. The collection also includes a complete construction site scene, prepared in three versions: 3ds Max + Corona, 3ds Max + V-Ray and Blender. The complete scene is also available separately as a standalone product.
